

Photography events

As some already know I am completing an MA Photography with Falmouth University. I have a variety of activities to complete and would like to invite others to take part. No experience of photography is required and you are welcome to bring a camera or phone with a camera along to use during the events.

1. Making images without a camera (to include scans, pinholes and cyanotypes). To be held at xxxxx on xxxxxx August 2018 10am-13:00pm. 6 places. This may be repeated on 12th August subject to demand.
2. From landscapes to small nurdles (plastic pellets). Discover ways of composing photographs on the beach. A visit to the beach. Location, date and times to be confirmed to suit participants, the tides and with regard to relevant permissions. 6 places.

First come first served and minimum age is 16years old, unless accompanied by an adult. Further details will be sent to those taking part.

I will also be exhibiting a small number of photographs from my project 'Beauty and the Beach...' which focuses on debris washed up or left on the beach. This will be at Speculation Gallery, Old Road, Brixton, Plymouth, PL8 2BS from 6pm 17th-24th August. Examples of my project work can be found on instagram @sarahnewtonphotography.

Do contact me Sarah Newton directly on xxxx or email address if you are interested with your name, phone number and email address. Please note that I am not holding these events in any 'official capacity' other than being a student and therefore do not carry responsibility and have insurance for others. Some of the images made and taken of people attending the events may be used in my work submitted to Falmouth University.
